## Music and Astronomy Under the Stars

Dr. Donald Lubowich, Coordinator of the Astronomy Outreach Program, presents NASA-sponsored telescope observations of the Sun, Moon, planets, stars, and nebulae combined with a multimedia astronomy presentation. These events are part of the worldwide 2009 International Year of Astronomy, celebrating the 400<sup>th</sup> anniversary of Galileo using a telescope for astronomy. There will be solar observing before each event and stargazing with astronomy videos after each event. The Amateur Observers' Society of New York will be assisting with this program.
